REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

For independent claims 1, 11, 36, 37, 38, 47, 73 and 83 the combination of limitations were not found singularly or in combination to teach the claimed invention. The closest prior art of record is the monitor in the 1997 released product Workflow Template by Template Software. the manual was copyright 1998 and is titled "Developing a WFT Workflow System".

On page 9-24 the state of tasks in and out are recorded. but not the data flow. The reference does not teach both data flow in and out. On page 9-19 the closest figure is 9-6 which monitors the queue length of data flowing in the component. The product is an object-oriented workflow system. In addition to this limitation, claim 83 also has the limitation of monitoring the UNDO feature. This limitation was not present in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The Priority claim has been perfected. And the references from the Provisional Application lost by the Office have been resubmitted and are a part of the record.
3. The invention passed 35 U.S.C. § 101 because a computer programming performing monitoring a computer program must be embodied on a computer readable medium and executing.
